

#### **Meeting 4 Notes 3/5/19 10-10:50AM**

Meeting Goal: Finish the Milestone 2 document, assign tasks for upcoming week

1. Dominic presented his first pass at database design and how we will structure the tables of data that we will need for the app features
2. Madi presented the basic user flow and site wireframes and group discussed whether we needed to add features to the wireframes
3. Worked on fleshing out the features and requirements on the Milestone 2 document
4. Group agreed that all members who are able to will meet before lab on Thursday to finish the project plan timeline portion of the milestone.
